

HERITAGE GROUP REPORT - JANUARY 2020

The Heritage Working Group has continued to monitor all planning applications submitted within our area and commented when appropriate.

The Vere Avenue/Gilcroft Street development applications, which the heritage working group have commented on, are still awaiting a decision by ADC.

There is no further progress to report on the two footpaths which we are hoping will be adopted by NCC

Application 1186. Stoneyford Road to Skegby Hall Gardens.

Application 1187. Stoneyford Road to Sutton in Ashfield Footpath No. 49

Silverhill Wood

It has been suggested that storyboards at the location of key pit buildings of both Silverhill and Teversal collieries would help visitors understand the history of the site. This may be something which NCC or the Forestry Commission could do.
